Message from the President

Saint Xavier University is a vibrant educational institution that has remained resilient throughout its 170-year history. Guided by its Mercy heritage, Saint Xavier continues to provide students with an unparalleled educational experience that prepares them to lead and serve in both their careers and communities.

It’s this mission-driven focus that has successfully led Saint Xavier through the 2015-2016 academic year. Though the institution endured the unprecedented state budget crisis and the uncertainty of the Monetary Award Program (MAP) funding, the University joined with students and families in working for a positive resolution.

Faculty, staff, students and alumni participated in on-campus rallies, coordinated letter writing efforts to elected officials, created social media campaigns, and traveled to Springfield to voice concern. The expression of unity among so many individuals for the benefit of college students across the state was inspiring.

These efforts were not in vain. Saint Xavier received the MAP funding promised to our institution through spring 2016 from the State of Illinois, providing relief to many of our students determined to pursue the extraordinary education provided by SXU.

Saint Xavier has played a significant role in shaping the careers and lives of countless individuals. Your continued support and contributions are helping to extend this influence to the next generation of SXU students. Thank you for sharing in our commitment of providing a transformative educational experience preparing students for lives of leadership and service in their careers and communities.

Knowing the history and success of Saint Xavier as well as the continued generosity of donors makes me proud to serve this University as its 20th president. I look forward to continuing our collective efforts to sustain SXU into the future.

Laurie M. Joyner, Ph.D.
President
The entire Saint Xavier University community was greatly affected by the Illinois Monetary Award Program (MAP) funding crisis that stopped the grant monies to students in need across the state. But no group was more affected nor more passionate about this issue than SXU students.

In November 2015, SXU students joined students from other Illinois public and private colleges and universities for a rally at the Capitol in Springfield to urge Gov. Bruce Rauner and state legislators to release MAP funds. SXU had one of the largest groups of students with about 20 in attendance.

Aside from the rally, SXU students took further action with a campaign that called upon the University community to call and email the governor as well as send him messages through social media with #MAPmatters to encourage Gov. Rauner to sign Senate Bill 2043 to bring an end to the crisis and move toward a solution.

In early July 2016, the students’ efforts paid off and a portion of the MAP funds were released from the state.
COMMUNICATION SCIENCES AND DISORDERS STUDENTS WIN ISHA'S ANNUAL COLLEGE BOWL TWO CONSECUTIVE YEARS

SXU students studying communication sciences and disorders won the Seventh Annual Illinois Speech-Language-Hearing Association's (ISHA) College Bowl in February 2016. This achievement follows their heralded 2015 win, which was the first time for SXU to win the competition and beat out three-time winner Northwestern University.

The 2016 SXU team consisted of Master of Science Speech-Language Pathology students Elzy Guika, Kelsey Kaclin, Kaila Koch and Amanda Wibar. The 2015 team included students Heather Driscoll, Elizabeth Hollon, Emily Klinker and Michelle Ruthig. Each year, the students demonstrated their mastery of language and language disorders, neurological disorders, fluency disorders, genetic syndromes, hearing, multicultural issues and the sound system as participants of the two-hour Jeopardy-style quiz game.

SXU STUDENTS PARTICIPATE IN CHICAGO NETWORK’S FUTURE LEADERS PROGRAM

Twelve Saint Xavier University students participated in the Chicago Network’s Future Leaders Program in May 2016. The Chicago Network is a group of senior women business leaders that has partnered with SXU to introduce young women to a variety of careers.

The Future Leaders Program offers students a chance to visit select companies, receive an overview of the organization and industry, take a tour of the workplace, and discuss the skills, abilities and education necessary for their career path. The goal of the program is to inspire women to become the next generation of leaders.

STUDENT STORIES

STUDENT STORIES

Students launch ‘Pals for Tara’ to aid one student in her fight against cancer

Student Tara Hill, a sophomore communication sciences and disorders major with a minor in psychology, has been battling Ewing Sarcoma, a form of cancer, since 2014. She has endured rigorous treatments, resulting in countless doctor visits and tests.

In an effort to decrease the medical costs Hill continues to accrue, her fellow classmates rallied together to create a fundraiser entitled “Pals for Tara.” The students conducted a bake and bracelet sale over the course of the week and raised over $1,000!

“Pals for Tara” was coordinated through Pals for Change (PFC), a service organization on campus, and collaborated with other campus organizations: Muslim Student Association (MSA); Beta Beta Beta (“Tri-Beta”); National Biology Honor Society; Pi Chi National Psychology Honor Society; Mercy Students for Peace and Justice (MSPJ); and Students for Justice in Palestine (SJP).
Biology Students Conduct DNA Research

Dr. Joseph Dertien, associate professor in the Department of Biological Sciences, gave students the interesting opportunity to study DNA. Students in the course collected plant specimens, extracted the DNA, amplified specific genetic markers using polymerase chain reaction, confirmed results using gel electrophoresis and then sent their samples to an outside lab that specializes in DNA sequencing. When the sequences returned from the lab, students used bioinformatics software to compare their data to an online database to determine the species of their specimens and decipher the evolutionary relationships among them.

Dr. Dertien had his students map the trees on the Chicago campus in order to document its biodiversity, affording students ample opportunity to understand the evolution of plant species.

“Barcoding and interpreting DNA sequences is good practice for a future in customized medicine,” he said. Certain types of cancer and cardiovascular treatments are already benefiting from the personalized medicine model, with endless opportunities for future breakthroughs.

Dr. Dertien has some expansions of his genome-sequencing research in the works, including generating data from samples he’s taken from the wetland on SXU’s Orland Park campus. The wetland offers the potential for SXU students to participate in a richer study of biodiversity than the Chicago campus can provide.

SXU Launches Innovative MathLab at Morgan Park High School

Saint Xavier University and Morgan Park High School officially launched an innovative MathLab at the highschool in February 2016 in an effort to prepare students for their first collegiate mathematics course.

The MathLab involves two SXU math professors training four MPHS math instructors on how to utilize the selected software as well as assist them in developing processes for selecting, monitoring and assessing all student learning progress. SXU students are trained as mentors for the before- and/or after-school programs.

SXU entered into a long-term partnership with MPHS in the summer of 2014, which was initiated by Mayor Rahm Emanuel to provide a pathway for students to gain early exposure to college and receive dual course credit. There are five elements to this partnership: dual enrollment, professional development, MathLab, mentoring and the STRONG Program. Funds for this activity were provided by a 21st Century Community Learning Centers grant awarded to the Chicago Public Schools Community Schools Initiative.
Graham School of Management, in collaboration with the Federal Reserve Bank of Chicago, held its second Economic Summit on Feb. 26, 2016, in the Metropolitan Club’s East Room, on the 67th floor of the Willis Tower in Chicago.

The summit consisted of a panel discussion that focused on the uncertainties in international economies, the real estate sectors and local economies that impact our daily lives. Moderated by SXU’s Graham School of Management Professor, Dr. Monzurul Hoque, the summit panelists included William Strauss, senior economist and advisor for the Federal Reserve Bank of Chicago; Dr. Indranil Ghosh, associate professor of economics at GSM; and Dr. Song Wang, assistant professor of finance at GSM.

The event was well attended as each panelist addressed the latest economic and financial events and policy changes in the U.S. markets. They also assessed how recent forecasts fit into our expectations for economic trends and policy changes and provided snapshots.

Graham School of Management students traveled overseas to China from May 8-17, 2016. The trip was designed to expose students to the rich culture and fast economic development of China and to motivate and inspire them to be global thought leaders in the international business environment. Students had the opportunity to explore different types of local businesses by meeting with firm managers and touring facilities in the cities of Beijing, Shanghai and Suzhou. Additionally, students traveled to various historical sites and experienced cultural activities.

SXU’s School of Education hosted a Kappa Delta Pi Society event on April 10, 2016, featuring 25-year Chicago Sun-Times veteran reporter Maudlyne Ihejirika as the special guest speaker.

SXU Student Teachers Received 100% Pass Rate on edTPA

School of Education proudly announced that all 47 aspiring teachers that took the edTPA in fall 2015 passed! The edTPA is a culminating subject-specific performance test that pre-service teachers take while student teaching. It builds off all their pre-service educator coursework and is required by Illinois law to graduate. In order to pass the edTPA, candidates must show competency in interacting with students, lesson planning, analyzing student learning, planning and assessing documentation and reflection commentaries.

“A 100% pass rate for the edTPA affirms that our teacher candidates are very well prepared and supported in this important licensure exam,” said Maureen Spelman, associate professor and director of Initial Licensure Programs. “Students intending to major in education would be well served at SXU.”
Saint Xavier University alumna Gordana (Dana) Dermody, RN, MSN, CNL ’11, was featured on the American Association of Colleges of Nursing (AACN) website for her work with the faculty at Tsukuba University in Japan. Dermody, alongside Asako T. Katsumata, Ph.D., RN, CNL, worked with these faculty members as they studied for the Clinical Nurse Leader (CNL) Certification Exam.

Dermody was involved with SXU’s first cohort of Clinical Leadership (CL) online students. The CL track is a master’s level program of study that includes courses that provide a foundation for advanced nursing practice and specialty courses. These courses prepare the student to assume the role of a clinical nurse leader in a micro-system setting within the health care delivery system.

Currently, Dermody serves as a special projects coordinator at OSF Saint Anthony Medical Center and is an assistant professor at Saint Anthony College of Nursing, where she teaches community leadership and cultural sensitivity in relation to the care of all vulnerable populations – locally and globally.

Nearly $1 million awarded to support nursing students

SXU’s School of Nursing and Office of Government, Corporate and Foundation Relations received two federal grants to provide 63 undergraduate and graduate nursing students with substantial financial support in the 2015-2016 school year, totaling $988,194.

The Health Resources and Services Administration (HRSA), a division of the U.S. Department of Health & Human Services, has awarded SXU $343,194 from the Advanced Education Nurse Traineeship (AENT) program, which will fund 22 students in SON’s Family Nurse Practitioner program who have an interest in offering primary care to medically underserved communities.

HRSA also awarded SXU $645,000 for the Scholarships for Disadvantaged Students (SDS) Program, which will be used to award scholarships to 43 undergraduate nursing students from disadvantaged backgrounds.

One hundred percent of the cost of Saint Xavier’s Scholarships for Disadvantaged Students awards and Advanced Education Nurse Traineeship awards is underwritten by HRSA; no non-governmental funds are used for the SDS or AENT programs.

An educational institution built on the Mercy tradition, Saint Xavier holds its commitment to its core values in the highest regard. Respect, excellence, compassion, service, hospitality, integrity, diversity and learning for life resonates in everything we do.
SXU STUDENT VETERANS GROW STRONGER, RECEIVE REMODELED RESOURCE CENTER

The Saint Xavier University Student Veteran Alliance has grown in numbers and support on campus within the past year. The student organization was named the July Chapter of the Month by Student Veterans of America (SVA) in 2015 for the group’s participation in several on-campus SXU events and initiatives, including a weeklong slate of events to commemorate Veterans Day and SXU’s annual Walk a Mile in Her Shoes event to raise awareness about the effects of violence against women. They also attended the 2015 SVA National Conference, volunteered with SVA-Illinois and helped out with the Marine Reserve Toys for Tots program.

On March 22, 2016, the alliance reopened the doors of their newly remodeled Student Veteran Resource Center (SVRC) for current and retired service members to seek out individualized advising and support. The space serves as a gateway for SXU veterans to meet and offer help with the transition from military life to the classroom and civilian life.

With the help of a $10,000 grant from the Home Depot Foundation’s Vet Center Initiative and Student Veterans of America, the resource center was modernized, creating more efficient space for student veteran use. With the renovations, the room can now accommodate 17 students, as compared to only nine students as before. The renovations are meant to encourage additional veterans to take advantage of the camaraderie, services and overall welcoming atmosphere offered by the SVRC.

Saint Xavier University is a Military Friendly® School that believes veteran students are a valuable group that adds to the richness of the school. SXU was recognized for their reputation of accommodating current and retired service members through campus resources such as their Yellow Ribbon Program and Student Veteran Resource Center (SVRC), which opened in August 2014.
Saint Xavier University’s women’s basketball team ended its 2015-16 season with a 30-4 overall record and finished in a first-place tie for the Chicagoland Collegiate Athletic Conference (CCAC) regular season crown with a 17-2 conference mark. This is the 14th straight appearance for the SXU women’s basketball program dating back to the 2002-03 season and the eighth time the team has advanced to the second round of the 32-team, single-elimination tournament.

The Saint Xavier University softball team was named the National Association of Intercollegiate Athletics (NAIA) runner-up, finishing the season with a record of 46-10-1. It was the team’s seventh NAIA World Series appearance and first since 2013. Their accomplishment is the best postseason finish recorded for our softball program in the history of our institution.

The Saint Xavier University Athletics Department held its 2016 SXU Student-Athlete Awards Banquet in April at the Shannon Center to honor 107 student-athletes for their outstanding accomplishments in the classroom.

In addition, senior Meghan Falsey and senior Mitch Uratchko were named the 2015-16 SXU Female and Male Student-Athletes of the Year. Falsey majored in nursing and was named to the 2015 All-Chicagoland Collegiate Athletic Conference (CCAC) Second Team and was a 2015-16 Daktronics-Scholar-Athlete. Uratchko finished his degree in business management, was a starter for the SXU men’s basketball team that finished 19-13 and qualified for the NAIA Division II Men’s Basketball National Championships and was also named a 2015-16 Daktronics-NAIA Scholar-Athlete.

In February 2016, the Saint Xavier University Athletics Department held a special dinner and ceremony at the Butler Reception Room on its Chicago campus to induct eight new members into its Athletics Hall of Fame. The eight inductees included: Mike Burke ’88 (baseball), Erin Hamermann ’10 (women’s basketball), Mike Lally ’10 (football), Bill McKeon ’11 (football), Cassie Rumpf ’08 (women’s soccer), Jabari Saunders ’06 (men’s basketball), Joe Skalski (baseball) and Ralph Throdule ’85 (men’s basketball). The event was a huge success with a crowd of nearly 200 on hand to witness this year’s inductee class added to the Hall of Fame.

In February 2016, the Saint Xavier University Athletics Department held a special dinner and ceremony at the Butler Reception Room on its Chicago campus to induct eight new members into its Athletics Hall of Fame. The eight inductees included: Mike Burke ’88 (baseball), Erin Hamermann ’10 (women’s basketball), Mike Lally ’10 (football), Bill McKeon ’11 (football), Cassie Rumpf ’08 (women’s soccer), Jabari Saunders ’06 (men’s basketball), Joe Skalski (baseball) and Ralph Throdule ’85 (men’s basketball). The event was a huge success with a crowd of nearly 200 on hand to witness this year’s inductee class added to the Hall of Fame.

Student-athletes recognized maintained at least a 3.25 cumulative grade-point average (GPA) through December 31, 2015, and each received either a bronze, silver or gold medallion as their award based on their respective GPA.

In addition, senior Meghan Falsey and senior Mitch Uratchko were named the 2015-16 SXU Female and Male Student-Athletes of the Year. Falsey majored in nursing and was named to the 2015 All-Chicagoland Collegiate Athletic Conference (CCAC) Second Team and was a 2015-16 Daktronics-Scholar-Athlete. Uratchko finished his degree in business management, was a starter for the SXU men’s basketball team that finished 19-13 and qualified for the NAIA Division II Men’s Basketball National Championships and was also named a 2015-16 Daktronics-NAIA Scholar-Athlete.
Saint Xavier University students visit with Pope Francis

In September 2015, Saint Xavier University’s Department of Campus Ministry sent 11 students, four SXU staff members and a CBS 2 Chicago reporter on a pilgrimage to what may be Pope Francis’s only visit to the U.S. in his lifetime. SXU pilgrims joined students from five other Mercy universities and the Mercy Volunteer Corps from five cities, where they participated in what was affectionately deemed “Pope-a-Palooza,” a weekend of Mercy-themed programming and papal events.

Activities included a thorough look at the Critical Concerns of the Sisters of Mercy, an advocacy opportunity with the Mercy-founded organization Project HOME, Mercy hospitality provided by Gwynedd Mercy University and discussion after viewing the Pope’s address at Independence Hall, all culminating in Mass with the Holy Father. Pilgrims brought along prayers from family, friends and colleagues.

SXU students attended the 2016 international Mercy Service trip to Belize

Each year, Saint Xavier University offers its students a chance to make a difference and help pay-it-forward to underprivileged communities in Belize, Central America. The International Mercy Service Trip offers students the opportunity to experience a new culture while building a house for a family in need.

In May 2016, students from a variety of study fields, one Sister of Mercy, one faculty member and one director for Mission Integration and Mercy Heritage traveled to Belize for learning and service.

The group worked with Hand in Hand Ministries, which provides services like housing, education and health care to people affected by poverty. They worked to build a 16x16 home for a family of five, finishing the house in record time of only three days! To continue their charitable efforts, the group then assisted Hand in Hand in constructing their new building, which will house their administrative offices and their outreach program and serve as a hurricane shelter for the poor neighborhood around it.

Also, the volunteers got to spend time at the Outreach Center, which provides daycare, educational services and health care to children and their families who suffer from poverty and poverty-related diseases. During their trip, the group learned a great deal about the education system, the health care system and the challenges faced by people living in poverty.

Additionally, the group received the opportunity to admire the Mayan temples and learned about Belizean culture and history.

Saint Xavier University students visit with Pope Francis

In September 2015, Saint Xavier University’s Department of Campus Ministry sent 11 students, four SXU staff members and a CBS 2 Chicago reporter on a pilgrimage to what may be Pope Francis’s only visit to the U.S. in his lifetime. SXU pilgrims joined students from five other Mercy universities and the Mercy Volunteer Corps from five cities, where they participated in what was affectionately deemed “Pope-a-Palooza,” a weekend of Mercy-themed programming and papal events.

Pilgrims brought along prayers from family, friends and colleagues.

SXU students pray with immigrants being deported

Begun the fall of 2015, Saint Xavier University, students, faculty and staff travel monthly to the Broadview Detention Center to join the weekly prayer vigil for immigrants being deported. Through this monthly commitment by the University community, we join in addressing the Sisters of Mercy of the Americas Critical Concern for Immigration: “Believing firmly in the dignity of every person, we work for just and humane immigration laws in the U.S., address policies that push people to flee their countries, and examine the global impact of immigration for the immigrants being deported.”

Mercy Service

Just as our mission statement reads, we educate our students “to search for truth, to think critically, to communicate effectively and to serve wisely and compassionately in support of human dignity and the common good.” Our Mercy service instills in our students a desire to become productive, compassionate citizens of the global economy.
SXU IN THE NEWS

SXU’S JOHN LUCKI TALKS FRAUD AT THE GAS PUMPS ON ABC WORLD NEWS TONIGHT

Graham School of Management Adjunct Professor John Lucki served as an expert source during a national interview with ABC World News Tonight reporter Ron Claiborne. During the interview, Lucki discussed an ongoing investigation on fraud at the gas pumps. He addressed how thieves are outsmarting gas stations by using inside information to generate glitches within the system. He also mentioned the impact of these glitches and how they can expose those underground storage tanks to potential cyberattacks.

SXU STUDENT QUOTED IN USA TODAY ON STUDENTS GIVING BACK FOR MLK DAY

Saint Xavier University student Nick Chiocca, sophomore, discusses how students at universities nationwide, specifically SXU, spent Martin Luther King Jr. Day giving back. SXU students acknowledged the day by giving back to the community with The Bread Truck, SXU’s food truck that travels to the Back of the Yards neighborhood with the Port Ministries to provide food and drinks to the homeless.

“I think it’s really great that tons of schools do this, including mine. It’s definitely awesome for people who want to volunteer but they normally can’t because of their school schedules.”

- “Students give back in celebration of MLK” by Rachel Green, USA Today College, Jan. 18, 2016

SXU’S COMMENCEMENT CEREMONIES GAINED NATIONAL AND REGIONAL MEDIA ATTENTION

SXU held its 170th Annual Commencement ceremonies during the weekend of May 6 and 7, 2016, where a total of 975 graduates were celebrated. The annual festivities incorporated an exciting line-up of speakers, which included YWCA Metropolitan Chicago CEO Dorri McWhorter, Actor/Comedian and South Side Chicago native George Robert Wendt III, and President and CEO of Mercy Home for Boys & Girls Rev. L. Scott Donahue. This line-up gained the attention of various media outlets throughout the nation, including NBC’s Nightly News and Bloomberg Business, and the Chicagoland area, including the Chicago Tribune and Chicago Sun-Times.

Wendt said:

“But Saint Xavier saved my freshman year. I had this calculus class, and I was carrying a solid ‘F.’ I come home for Christmas, and my mother, who had a great relationship with the Mercy nuns at Christ the King school on the Southwest Side, called the nuns, and they sent me right here, to Saint Xavier — where every day of Christmas break, I met with a tiny, little old nun who drilled me in calculus. After two weeks, I broke through. I figured it out.”

- “That time of year: Commencement speakers offer words of wisdom” by Maudlyne Ihejirika, Chicago Sun-Times, May 22, 2016

SXU’s Professor James Walker featured in Inc. Magazine

Saint Xavier University Department of Communications Professor Emeritus James Walker, Ph.D., provided his analysis on the accuracy of Major League Baseball (MLB) forecasting. The article featured both Walker and Duquesne University Professor Robert Bellamy’s examination of the media’s predictions of team performance in the MLB and the inaccuracies discovered from the 2015 season.

“When we broke up our data set, we found that predictions were weakest from 1977 to 1992—the era when free agency emerged and took effect. The shuffling of marquee players from team to team certainly produces big headlines. But it also may cause media observers to overestimate the difference a handful of players can make.”

- “What baseball teaches us about the fine art of forecasting” by Dan Mochary, Inc. Magazine, April 4, 2016

SXU’S SHAWN SALMON WAS QUOTED IN NPR SHOWCASING HIS LOVE OF JAZZ

Saint Xavier University’s Director of Jazz Studies Shawn Salmon, Ph.D., reflected on his love of jazz music and his remembrance of Chicago’s Jazz Record Mart. The article discussed the closing of the iconic Chicago location, with comments from Salmon on the change of purchasing music from a brick-and-mortar store.

“I love going to stores, because usually online they just kind of show you what’s happening, what’s cool, what’s selling. And it’s always the same stuff. You can walk into a store and say, ‘I had no idea that existed,’ or ‘I’ve been looking for that forever.’ I love it. I’d just spend hours and get lost.”
